Tribe Solution S U B

The spectacular form of the new **Tribe Solution Sub** dramatically separates it from the utilitarian mediocrity of conventional subwoofer design. Astonishing output and frequency depth that contradicts its appearance and further distances it from the pack. Two stands are offered for a Horizontal or Vertical design placement. It is simultaneously both a beauty and a beast. And pure Totem Tribe.

www.totemacoustic.com

Bass excitement is delivered by the furious force of dual 8" woofers powered by a 500watt integrated amplifier.

Fiberglass woofer cones are reinforced with a fine screen cellulose fiber mass damping backer and a butyl rubber surround for the strength and speed required for prodigious bass output. An anodized aluminum dust cap dissipates heat, so it runs cool and with bulletproof reliability.

The custom designed 500watt amplifier drive the woofers with a controlled ferocity. The modern digital design runs much cooler and more efficiently than conventional amps, permitting the slim proportions and sealed enclosure.

A unique BASS EQ offers two settings; natural is pure and linear, providing tight, musical bass. High Impact increases the lower range output by several dB for more intense bass energy.

The combination of a slim form factor, sealed enclosure, and various connection methods enable infinite placement options. The LINK wireless transmitter can be added to further expand placement options with even greater flexibility. Performance is optimal and consistent whether flush to a wall, concealed in a cabinet, or prominently displayed like the artwork it is.

About Totem Acoustic

Created in 1987, Totem's mission is to develop loudspeakers capable of reproducing a truly involving performance. Our goal is to provide designs that are affordable, cosmetically timeless, and invoke an emotional response. Music, movies, TV, and video games are accurately rendered with a powerful focus that is yet soul stirring.

Specifications / Features

- Design:** Powered Subwoofer
- Enclosure:** Sealed
- Amplifier:** Class D 500 watts
- Woofer:** Dual 8" fine strand fiberglass cones with fine screen cellulose fiber mass damping backer, anodized aluminum dust cap and butyl rubber surround
- Voice Coil:** Anodized aluminum former with enameled copperclad aluminum copper wire
- Frequency Response:** 26Hz - 200 Hz
- Cross Over:** Variable - 40Hz to 200Hz -24dB
- Phase:** Variable - 0 to 180 degrees variable
- Inputs:** Stereo RCA/LFE/Wireless
- Power Modes:** Auto/On /Wireless
- Dimensions (HxWxD):** 610 x 332 x 115 mm / 24.01 x 13.07 x 4.52"
- Dims With Feet:** 610 x 336 x 115 mm / 24.01 x 13.07 x 4.52"
- Weight:** 17.38kg / 38.35lbs
- Accessories:** Two Stands, Magnetic Grill, Adhesive Feet & Power Cord
- Available Finishes:** Black and White
