

CD Box S3

Ultra compact CD Player

MSRP 419 € (incl. VAT)

- **NEW** aluminium casework
- **NEW** 1,54" display with colour inversion function
- Slot-in mechanism
- 32bit/384kHz DAC for precise playback of Audio-CDs
- RCA line level analog output
- Coaxial S/PDIF digital output
- Remote control included
- Metal casing protects against interference
- Available in silver or black
- Made in Europe

Colour options:  

Supports: Red Book CD-DA

Digital output: 1 x S/PDIF coaxial

Analog output: 1x pair RCA

Output level: 2,0 Vrms / 0dBFS

Frequency response: 20Hz - 20kHz, ± 0,15dB

THD (analog output): 0,005% / 1kHz

THD (digital output): 0,001% / 1kHz

Noise floor: > -120dB / 20Hz – 20kHz

D/A-converter: PCM5102

Power supply: 9V/2A DC, suitable for your country

Power consumption: 250 - 1500mA DC, <0,5W in Stand-By

Battery remote control: 1 x CR2032 / 3V or 1 x CR2025 / 3V

Dimensions WxHxD: 206 x 55 x 153 (160 incl. sockets) mm

Weight: 1330g without power supply

The new CD Box S3

The CD Box S3 is our first product of the new S3 line. Not only the circuit design was reworked, also the case has been significantly changed & the CD Box S3 introduces our completely new S3 size. Besides the new full aluminium casework, it also features a 1,54" display with colour inversion function which shows you all relevant information you need to enjoy your favourite CDs. Easily control the CD player with the buttons on the front, or with the supplied remote control.

In contrast to DVD or Blu-ray Disc players, a pure CD player is frequently better in playback of stereo CDs. The drive in the CD Box S3 enables 1:1 bit-accurate CD playback. The new DAC chip provides the best digital analog conversion with a bit depth & sampling rate up to 32bit/384kHz. The slot in mechanism smoothly draws in the CD and after a few seconds it is ready to play.

For even more versatility and no limits towards the top, the S/PDIF coaxial output can feed an external DAC. This way, you can let your favorite high-end DAC convert the accurately transferred bit stream from the CD. The CD Box is the perfect addition to your HiFi system. It is available in silver and black.
