

Argon1

Argon1 bookshelf speakers are often praised for their reference-quality midband resolution, and surprisingly low-reaching bass response. These moderately-sized speakers produce an enjoyable, uncolored, natural sound that draws you deeper into your favorite recordings, and allows you to discover music nuances you never thought existed. Argon1 loudspeakers fill your home with pure sound in any listening situation, be it critical or background listening. As with all Amphions, these loudspeakers are highly adaptable to any interior design, offering a multitude of colour options.

Technical specifications
