

Argon7LS

Award-winning Argon7LS floorstander utilizes technologies from Amphion's flagship studio monitor Two18 - a unit which helps world's top artists and sound engineers achieve the best possible results in the recording studio. A combination of Amphion's proprietary waveguides and two 6.5" woofers work like a single-phase and time-coherent driver. Their acoustic purity and large surface area lead to extremely natural, transparent, and precise sound reproduction with deep emotional impact. Argon7LS makes it the perfect choice for audio enthusiasts who want to dive deeper into their favorite recordings and discover music nuances they never thought could be revealed - hearing the music just as the artist intended.

Technical specifications

Operating principle	Two-way, passive radiators
Tweeter	1" titanium
Mid / woofer	2 x 6½" aluminium
Crossover point	1600 Hz
Impedance	4 Ω
Sensitivity	91 dB
Frequency response	28 – 25.000 Hz -6dB
Power recommendation	50 - 150 W
Measurements (H x W x D)	1158 x 234 x 344 mm
Weight	27 kg
