

Helium520

Slim, elegant, and easy to place, Helium520 speakers adapt to your acoustic and aesthetic requirements. They are well-known for their honest, yet pleasant, sonics. Helium520 can reveal fine details, handle less-than-perfect source material, as well as power - with its added weight and bass extension as a floorstander. The advanced acoustic design principles, high-quality components, and low crossover point allow you to enjoy remarkable midrange resolution that remains immaculate even at low listening levels. As with all Amphions, these loudspeakers are highly adaptable to any interior design, offering a multitude of colour options.
