

Recommended height information for the ION-001 stand

This is DS-Audio' s recommendation for correct height positioning when installing ION-001.

If the height measurement from the installation surface (table or audio rack) to the top of the platter surface(a) is 18 cm or less, then the ION-001 can be used without a stand.

If you want to install ION-001 on a high turntable or in a more optimal position, the recommended stand height for ideal positioning of the ION-001 is as follows:

The stand heights below are recommended values only. In general is best to install the ionizer' s outlet vents as close as possible to the platter regardless of the turntable you are using.

Unit: cm		Unit:inch	
(a)	Stand height	(a)	Stand height
0cm-14cm	No Stand	0in- 5.51in	No Stand
15cm	1cm	5.91in	0.39in
17.5cm	3.5cm	6.89in	1.38in
20cm	6cm	7.87in	2.36in
22.5cm	8.5cm	8.86in	3.35in
25cm	11cm	9.84in	4.33in
27.5cm	13.5cm	10.83in	5.31in
30cm	16cm	11.81in	6.3in
32.5cm	18.5cm	12.80in	7.28in
35cm	21cm	13.78in	8.27in
37.5cm	23.5cm	14.76in	9.25in
40cm	26cm	15.75in	10.24in
