Confidence 20A

Pure performance

Active reference hi-fi just got serious

Listen with Confidence: add a source, hit the power, and get the performance your music deserves. Active hi-fi just had its biggest upgrade in over a decade.

Confidence 20A is the most elegant way to build the simplest audiophile system.

It takes the standard Confidence 20's head-turning looks, legendary drivers and award-winning sound, and hides studio-grade amplifiers right inside its stands. It uses the same audio-processing tools you'll find in our flagship Core professional reference speakers: think full DSP, analogue and digital connectivity, and pro-level room-compensation controls. Everything you need to hear.

If you're all about the audiophile chase, we have some news for you: you won.

Snow High Gloss

Space High Gloss

Analogue input	XLR (balanced)
Digital inputs	XLR (AES3)
Digital outputs	XLR (AES3)
Frequency response (+/- 3dB)	34 – 25,000Hz
Frequency response (-6dB dynamic)	30 – 28,000Hz
Box principle	Ported: Exponentially Shaped Dual-Flared port
Crossover	2-way DSP-based
Crossover frequency	2500Hz
Woofer	18cm NeoTec MSP
Tweeter	28mm Esotar 3
Amplifier power	400W + 150W
AC power input	100-240V 50/60Hz
Standby power consumption	< 0.5W
Maximum power consumption	120VAC: 453W / 230VAC: 425W
Weight	28.5kg / 62.8lb
Dimensions (W x H x D)	205.5 x 500 x 396mm 8 x 19.7 x 15.6in
Dimensions with feet/grille (W x H x D)	368 x 1119 x 457mm 14.5 x 44.1 x 18in
Finishes	Space High Gloss, Snow High Gloss
